Trucking

We will deliver bulls free of charge up to 250 miles. After 250 miles, standard trucking rates will apply. If the buyer is unable to take their purchase on sale day, we will board the bulls free of charge until April 15. A \$50 discount will be given for any bull taken home sale day.

Welcome to the 7th Annual York Creek Red Angus Bull Sale!

The cattle business is a people business, and we enjoy building new relationships as well as growing ones we have already established through selling seedstock cattle. We want to personally thank everyone who has taken an interest in the offering this year and in previous years. Whether you are a past customer, or considering becoming a new one, we can't continue to do this without your support and we will continually strive to improve our cattle to help make each cowherd our bulls go into more profitable. We are very proud of this set of bulls, and it is exciting to see the quality increase parallel to the genetics we have been accumulating.

The Red Angus breed has continued its unprecedented growth for a variety of reasons: exceptional carcass merit and opportunity for premiums at harvest, accuracy of EPDs and adding value to commercial crossbreeding programs. However, we feel that the most important reason for the increasing popularity is the value and profitability of the Red Angus female. Her ability to calve easily, keep her flesh through peak lactation, breed back in a timely manner, and then still push the scales at weaning time is what has carved the Red Angus's new position as the second most populous breed in registrations in America.

Our first and highest priority is on the female. If we didn't feel that any one of these bulls would sire daughters that could work in any part of the country, they would not be in the sale. It is the cow family behind the bull that separates the average purebred bull from the best. We have spent quite a bit of time and resources identifying females from around the country to add to our program to help continue to raise the genetic bar of our cowherd.

The bulls all come guaranteed for the first breeding season with free delivery within 250 miles and free boarding after the sale until April 15. No bull in the sale or any animal on the place has had their feet trimmed. We do not have any cooperators, and these critters have never left the place. We take pride in knowing our cattle very well.

Once again, thank you so much for your interest and if you have any questions please don't hesitate to give us a call or swing by to take a look at the bulls or the cowherd. If you can't be at the sale in person, please see the list of sale day phone numbers that we will have representatives for over the phone bidding, as well as internet bidding available through www.dvauction.com. We look forward to seeing your March 21st in Dunlap!

We are leading off with probably the best Ace son we have ever raised and a very complete individual. A true herd bull prospect with the phenotype and performance to fit into any operation. Very easy fleshing, highly maternal genetics without sacrificing true growth and power. His mother is a very good uddered cow out of the Ole Farms program in Alberta who is really making a big impression on us. From day one, he has been one of the highest performing bulls with a 771 lb. weaning weight followed by a 1345 lb. ultrasound weight. **Top 2% ME and 13% STAY**

Mike E17 came to us by way of an embryo package purchased in Denver from the recently dispersed Bar EL program. He has as much pedigree as any bull in the offering. His sire, Magic Mike 18, is the sire of the National Western Stock Show grand champion female in 2016, and also goes back to Indeed 104H, the nearly undisputed greatest female producing bull in Canada if not North America. Mike E17 will add frame to his steer progeny, and you could keep every single daughter you get. They should be extremely fertile, fault free cows that flat out make you money. This is a truly rare opportunity to tap into some of the best maternal genetics in the breed. **Top 1% ME and 1% Stay**

A very long bodied, deep sided, bull with tremendous fleshing ability. He had one of the highest marbling scores of any, and has plenty of calving ease to go with it. His mother is a donor cow for us who hails from the A1 herd in Texas. We plan on continuing to flush her extensively as we are extremely pleased with her calves thus far. His sire, New Direction, has been one of the most highly used bulls in the breed in recent years, and goes back to the Angus legend, Mytty In Focus. Outcross genetics on both the top and bottom side of the pedigree. **Top 3% ME. Ratio of 140 IMF (marbling). One of the largest scrotals in the sale at 42 cm.**

A very soggy, powerfully constructed son of the ABS bull, Epic R397k and out of one of the highest indexing cows in the herd. She is truly a no miss cow from one of the best cow families in the herd. She will someday enter our embryo program. Her mother is the dam of lot 13. Fable came light with a 79 lb. bw and hasn't touched the brakes since then. He has enough calving ease to use with confidence on heifers, but has the performance and shape to be used on cows. His EPD profile is very balanced across the board, and check out his carcass scan data. It is very hard to find individuals who can excel in antagonisms like IMF and Ribeye Area.

Ratio of 120 IMF, 15.63 in Ribeye

This bull's breeding is a combination of some of the best in outcross Canadian maternal genetics. Detour and Mulberry both have solidified their places in breed history because of the daughters that go on into production. E41 is a very well constructed critter with plenty of eye appeal while offering true muscle shape. If you do any breeding for the show ring, this bull is as good as any in the offering to add some balance and angularity. Another combination bull that could be used on heifers as well as cows.

This is the only Revelation son we will be offering this year, but he has as much of his sire's character and quality as any I think we have ever sold. This is a carcass and performance bull through and through. We have yet to find a sire line that will consistently inject pounds and terminal value like this Revelation line of cattle. Expect this bull to push feeder calf weights and carcass merit if you retain any ownership in your calves through the feed yard. Make sure you note how good his EPD profile is across the board as well. **10 Traits in top 30% of the breed. 40 cm scrotal**

MACK REBA

JACOBSON REBA 1290

One of the most exciting bulls in the offering because of the combination of calving ease and some of the best performance of any bull in the sale. Out of a first calf heifer, he had an actual BW of 75 that was followed up by a WW of 781 and a YW of 1333 respectively. Those weights were at the top of the contemporary group. E65 has the same cherry red hair coat, high marbling, low maintenance, and exceptional calving ease that we've come to expect from his sire, Ultimate. This bull probably has the best disposition of any bull in the group, and has a very good EPD profile.

Heifer bull with a great IMF scan. 9 Traits top 30% of the breed

BW	WW	2/13/18 Weight	IMF/Ratio	BF/Ratio	REA/Ratio	Scrotal	Frame	WDA

BROWN C-MS ABIGRACE V P7502

This bull should've been named something more like, Big Hoss, or Tank. He is the second heaviest bull we have ever raised here at York Creek. It is hard to make Red Angus cattle as heavy boned, and three dimensional as this guy. On top of it all he is backed by one of our donors, Abigrace W932. Without question, I think you can expect this bull to slap the pounds and performance into his feeder progeny. **Top 1% of the breed for CEM. Top 10% of the breed for YG and FAT.**

C-BAR ABIGRACE W932
BROWN C-MS ABIGRACE V P7502

Another very high quality ET son from the Abigrace donor. This bull doesn't have quite the ruggedness and skeletal dimension as his full brother, lot 15, but comes with more eye appeal and flexibility. It is very hard to find any holes in this bull. Flat shouldered, big middled, stout hiped, and moves like a cat. This bull has one of the best dispositions of any in the offering. **Top 1% CEM. Top 20% YG, and Fat.**

TREE LANE PERFECT STORM
YCRA STORM C36
YCRA GLADSTONE H14

The first of a trio of Redemption sons being offered. All of them are out of first calf heifers, which I think speaks to the genetic merit in these animals. E31 is impressive all across the board in his data. Exceptional weaning and yearling weights, followed up by an IMF scan good for a ratio of 126 and a scrotal circumference of 41 cm. **Heifer Bull. 10 EPDs top 25% breed.**

Sale Terms and Conditions...

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle. Buyer hereby grants to Seller/Sale Manager a security interest in the livestock purchased to secure the payment of the purchase price, and Buyer further authorizes Seller/Sale Manager to file any necessary documents with any Secretary of State or other governmental entity necessary to perfect such security interest.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the Auctioneer and the decision will be final.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

FROZEN LOTS: Buyer is to pay for all shipping and handling of embryos and/or semen. Embryos and/or semen will be shipped COD or a separate account established at the storage facility within 30 days of sufficient payment unless other arrangements are made with Sale Manager and/or Seller.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the Sale Manager prior to the auction. All efforts for the exportation of cattle can be arranged through the Sale Manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Suggested Sale Terms of the Red Angus Association of America including but not limited to points 8 and 10.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

LIVESTOCK INSURANCE: Please tell the sales clerk when you check out if you would like to insure your purchases, and they will record the necessary information. All purchases are the buyer's responsibility as soon as they are sold.
